

BLUE FIN
INTERNATIONAL SHIPPING (L.L.C.)

ISO 9001-2008

Foreword of the Chairman of the Board and C.E.O

Blue Fin International Group was founded in 1994. Since then it has gone on to become one of the premier Shipping, Transport and Container companies in the United Arab Emirates. Here at Bluefin our primary aim is customer satisfaction, and through our highly skilled and dedicated staff we have managed to achieve that goal time and time again. We strive to do all our work efficiently and with high quality. Our ISO 9001 certification in 2000 is further proof of our dedication to quality and efficiency.

After years of high quality work, Blue Fin International Group has positioned itself to be amongst the best, if not the best in the Shipping industry.

Arshad Mohammad
Chairman / M.D.

Profile Of the company

The Blue Fin Group is a limited liability company formed under the Company Law Rules of Dubai in 1994. The company is strategically positioned in Dubai and managed by experienced and highly skilled professionals. We offer a wide range of services to meet the requirements of the shipping industry. We have set our goal high to emerge as the most sought after one-stop shipping organization capable of offering services with an unwavering commitment to quality, efficiency, customer satisfaction and reliability.

The Blue Fin Group is staffed with personnel whose proven experience in the Shipping industry in the Middle East have ensured that all aspects of our clients requirements are taken care of on a continuous day to day, month by month basis. We have expertise help you by transporting your commodities from Dubai to anywhere in the world and vice versa. In fact, we are a full-fledged shipping organization offering the best professional service in all shipping related areas.

“ Our staff is highly skilled and has years of experience ”

We offer all these services at competitive rates, and our years of experience means that these services will be carried out by professionals who are the best at what they do.

**“ We work
around the clock ”**

Project Cargo Handling and Logistics

Our team of highly skilled and experienced staff can plan the transports to the very minute details. Our transport means range from normal 12 meter platform trailer to the most sophisticated modular trailers.

We have special expertise in the movement of heavy lift equipment, and can handle cargo weighing 100-200 metric tons.

We can also handle Ro-Ro cargo up to 100 metric tons.

Land Transport

We specialize in moving the following, within the UAE, and from the UAE to all over the GCC as well as Iraq and Egypt.

- Specialized equipment, such as, drilling equipment, vibrators and heavy machinery
- Transport of 20ft and 40ft flat trailers and general cargo
- Transport of containers of any size, oversized cargo in low beds and RO-RO cargo

Our fleet of in-house trucks ensure that all your road transportation needs will be met, and our highly skilled and dedicated staff ensure that all the transport will be safe, quick and efficient.

“ Moving any type of cargo
by Sea, Air and Land ”

Air Freight

One of the milestones of The Blue Fin Group, has been the chartering of aircrafts to transport project cargo from Dubai to all over the world and vice versa. With our dealings with these major airlines for the last 16 years, we have built strong relationships which enable us to receive special rates which we then forward onto you for your satisfaction.

Our services include

- Short delivery times
- Quick circulation of capital
- Less elaborate packing
- Eliminated the need to intermediate storage
- Safe and Reliable
- Favorable insurance premiums

We constantly deal with many large companies, and their continual support of Blue Fin speaks volumes of our quality of work

Some of our clients include:

- Geco Support Services
- Agility Logistics
- Schlumberger Gulf Services
- Baker Hughes Limited

“ Our highly skilled staff will take care of all your needs ”

Customs Clearance

Our efficiency and special know-how of customs clearance in UAE enables us to expedite this process quickly and efficiently. Our customs brokerage team is highly skilled and highly experienced providing you the best possible service.

Our services include

- Clearance
- Customs consulting
- Tariff and commodity interpretation
- Preparation of local documents
- Pre Clearance approvals
- Free zone and transit clearing
- Draw back and temporary import clearing
- Dedicated team ready to serve you at any time

“ **Efficiency and speed for our customers is our main priority** ”

Container Division

Our container division was established in 1996 to provide clients with all services related to their container needs. We provide containers of all types, for both sale and lease, both refurbished and brand new.

We offer total container services, these include

- 20', 40', Reefer, Open Top and a host of different types of containers for Sale or Lease
- Container Storage
- Sales and Marketing
- Cargo supervision
- Container Tracking
- Container Repair
- Reefer Container Management

Brand New Containers

Our container division always maintains a healthy stock of brand new containers at all time. Most Brand New Containers are built by us directly from the factory using our own prefix. We also do have access to number of people holding stock in case we need to move a larger volume of containers. We also utilize all shipping line which helps us to move a huge volume of containers in the shortest time if required. But at most time our buffer stock helps us avoid an delays for delivery to the customers

Gensets

Gensets provide mobile power for reefer containers during transit by road, ship or when used in places where electricity is not available. These diesel powered generators "clip on" on to the back of the reefer containers in designated spots to provide safe and secure stowage during transit. They provide a reliable source of power in construction sites and countries and cities prone to power fluctuations. Blue Fin has available, refurbished gensets for both lease and rental. Units are tested to be working in full operational mode before release. Technicians are available to monitor the units during lease as well.

“ We sell and lease 20ft, 40ft std, 40ft HC,
20&40ft reefer and open top containers ”

Flatpack Containers

Flatpack containers are specifically manufactured for use as accommodation or office units. These units have been hugely successful in construction sites, as labor accommodation, supervisor offices and military personnel in conflict zones. Flatpack containers use the same skeletal structure as marine containers, but without the steel sheets. Instead composite panels are used as the walls of the units. Flatpacks have now become a suitable alternative to traditional containers due to a number of reasons, mainly being :

- Ease of erection - a single unit can be erected within hours
- Flexibility – A number of units can be joined together to give a wide range of layout options
- Transportation – Since these units come in a knock down structure, 4 units can be mounted on a single trailer or a single 20' container, thus reducing transportation costs by upto 75% per unit.

Container Seals

Used during shipping of containers, container bottle seals with unique serial numbers are available in stock at Blue Fin Terminal.

Container Modification

One of our main areas of expertise is container modification. Under highly skilled and experienced staff and engineers, Blue Fin Containers manufactures the following containers

- Accommodation Containers
- Office Containers
- Toilets
- Mosques
- Labor Camps

We also modify containers which can serve as force protection- we have provided several of these to the US Navy through Agility Logistics

We can also modify containers as per any special requests

New 40' foot container

New 20' foot container

Refurbished container

Insulated container

“ We specialize in all types of container modifications ”
